Data sheet

HP Pavilion 27c Curved Display

Embrace the curve.

The HP Pavilion 27c Curved Display gives you a more immersive viewing experience with an enhanced field of vision, premium DTS audio, wider viewing angles, and convenient connectivity to smartphones and tablets.

HP Pavilion 27c Curved Display

Immersive curved display

- Stimulate your senses as you bring your movies, games, and photos to life with the immersive panoramic effect of the wide angle, 1920x1080 Full HD[1], 27-inch diagonal curved display.
- Experience an enhanced field of view from practically any position with consistent color and image clarity maintained across the ultra-wide 178° horizontal and vertical viewing angles.

Serious sound

- Feel the pulsations of the deepest bass and highest trebles funneled through dual 4-watt front-firing speakers, or the headphone jack, delivering rich audio sensations with DTS Audio technology.
- Adjusting the screen or sound is easy, the side-accessible headphone jack and audio controls are within easy reach.

Connect all your content

- Share your pictures, videos and more from your tablet, notebook or smart phone through HDMI and VGA video connectors or MHL (Mobile High Definition Link), that charges while you watch.[2]
- The display is suspended above a distinctly unique open-wedge designed stand, providing convenient access to rear ports, with your tablet or phone stored underneath.

Extreme detail

- Amazing imagery is delivered with a 3000:1 Contrast Ratio for deeper blacks, brighter whites, and crisper colors.
- Videos and games come to life with the smooth 8 millisecond gray-to-gray response time.
- The reflectiveness typical with glossy screen surfaces is appreciably reduced with the Low Haze screen enhancement, without losing clarity and contrast of screen imagery.

Be responsible

- Reduce power consumption and help lower your costs with an intelligent, energy-efficient design that is ENERGY STAR® and TCO qualified and EPEAT® Gold[2] registered. The display also includes mercury-free display backlights, a low halogen design, and arsenic-free display glass.

[1] High-definition content required.

[2] MHL 2.0 port will charge a MHL compatible smart phone and tablet battery. Requires the smart phone or tablet to be enabled for MHL or have an HDMI dongle to connect to the monitor. See your mobile device specifications.

[2] EPEAT® registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.

HP Pavilion 27c Curved Display

Part number	J9G67AA
Panel type	27-inch diagonal VA Curved
Viewable image area	68,58 cm (27 in) widescreen; diagonally measured
Viewing angle	Up to 178° horizontal/178° vertical typical
Brightness[1]	300 cd/m2
