

# HP LaserJet M1522nf MFP

## vs. Samsung SCX-4521F

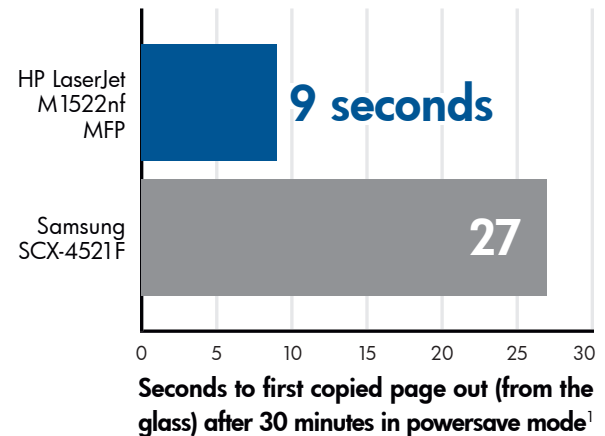

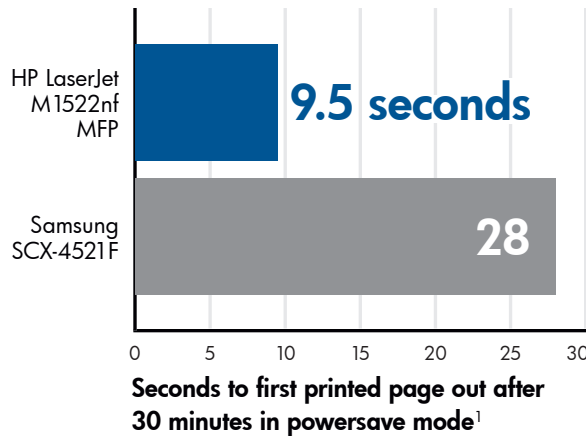

### Boost productivity and reduce costs with the HP LaserJet M1522nf MFP

- **Fast, on-demand printing and copying** — Your HP LaserJet M1522nf MFP has a faster engine (24 pages per minute vs. the Samsung SCX-4521F's 20 ppm and faster scanner (16 ppm from the ADF vs. only 9 ppm for Samsung). And Instant-on Technology lets your HP MFP warm up faster, allowing you to print up to 8 pages or make up to 7 copies from powersave mode before the Samsung unit can even finish warming up.
- **Fast sustained performance** — Your HP LaserJet M1522nf MFP boasts a faster processor (450 MHz vs. the Samsung SCX-4521F's 150-MHz chip) and four times as much memory (64 MB vs. Samsung's 16 MB).
- **Superior scanning technology** — When scanning the interior of books or magazines, your HP LaserJet M1522 MFP's Instant-on CCD scanner will more easily pick up the text in the center closest to the binding, whereas the Samsung SCX-4521F's CIS scanner may lose some text and/or details.
- **Better paper handling** — Your HP LaserJet M1522nf MFP can hold up to 250 sheets in the standard paper tray vs. only 150 sheets for the Samsung SCX-4521F. Likewise, you can stock up to 10 sheets or envelopes in your HP LaserJet's priority-feed tray, whereas Samsung's manual feed slot only accepts one at a time.
- **Exceptional connectivity** — The Samsung SCX-4521F only offers USB 1.1, but your HP LaserJet M1522nf MFP sports USB 2.0 Hi-Speed, the data transfer rate for which is 40 times faster. Furthermore, networking is a standard feature on your HP MFP. With Samsung networking is optional.
- **One-touch fax keys** — Your HP LaserJet M1522nf MFP has 12 of them. The Samsung SCX-4521F has none.
- **Reliable print quality** — Be sure to evaluate print quality. Internal HP testing finds that Samsung SCX-4521F output can suffer from mild banding, ghosting, and poor light-to-dark transitions.

### Print and copy sooner with HP LaserJets

HP Instant-on Technology virtually eliminates warm-up time, so you can print up to 8 pages or make up to 7 copies from powersave mode on your HP LaserJet M1522nf MFP before the Samsung SCX-4521F can even finish warming up.

### Get superior copying performance with HP

A faster ADF and processor plus more memory help your HP LaserJet M1522nf outperform the Samsung SCX-4521F when making copies — especially in collate mode. Plus HP's CCD technology can yield scans with greater contrast, depth, and detail.
