

HP LaserJet P1005

vs. Dell 1110

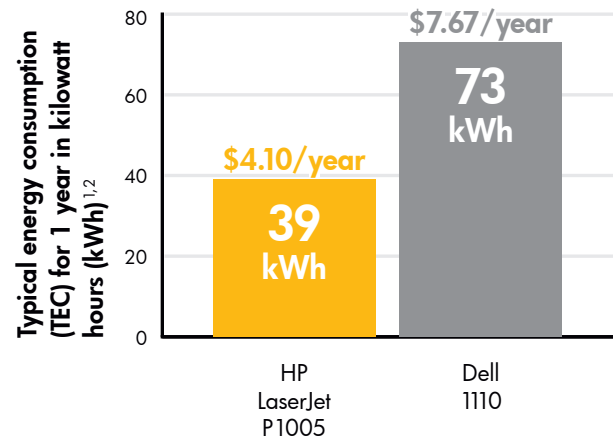

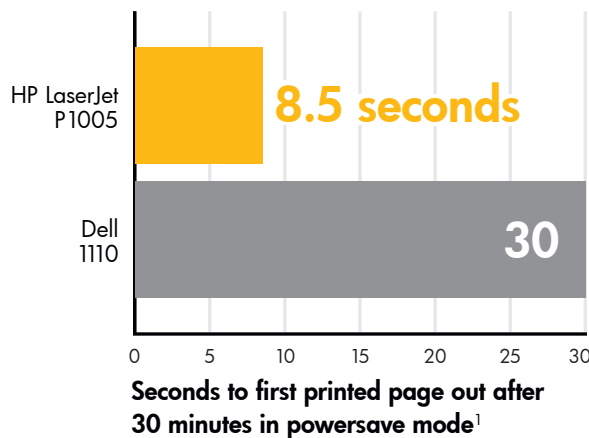

Boost productivity and reduce costs with the HP LaserJet P1005 printer

- **Fast, on-demand printing** — Instant-on Technology lets your HP LaserJet P1005 print up to 6 pages from powersave mode before the Dell 1110 can even finish warming up.
- **Energy efficient** — The advanced, fast-heating ceramic element within your HP LaserJet P1005's Instant-on Fuser consumes significantly less energy than the conventional fuser Dell builds into the 1110. Your HP LaserJet also meets the new, more strict ENERGY STAR® rules that went into effect April 1, 2007.
- **Faster processor** — Your HP LaserJet P1005 has a 266-MHz processor. The Dell 1110 has a 150-MHz chip.
- **Superior paper handling** — Your HP LaserJet P1005 lets you place up to 10 sheets or envelopes in the priority input tray vs. only 1 sheet or envelope for the Dell 1110. Furthermore, unlike Dell, HP delivers manual duplex support.
- **Faster connectivity** — The Dell 1110 only offers USB 2.0 Full Speed, but your HP LaserJet P1005 delivers USB 2.0 Hi-Speed so data transfers up to 40 times faster.
- **Mac support** — Your HP LaserJet P1005 supports Mac OS X (v.10.28, v.10.3, and v.10.4). The Dell 1100, on the other hand, does not.
- **Inconspicuous** — Your HP LaserJet P1005 emits less noise and has a smaller footprint than the Dell 1110.

Save time and energy with HP LaserJets

HP Instant-on technology virtually eliminates warm-up time, letting HP LaserJet P1005 users print some documents before the Dell 1110 can even finish warming up. Plus HP Instant-on fusers also use far less energy than their Dell counterparts.

Enjoy less-obtrusive printing with HP

Free up desk space and reduce distractions with HP. For instance, the HP LaserJet P1005 consumes 27% less desk space than the Dell 1110. Plus the HP device is inaudible in ready mode, whereas the Dell unit emits up to 17 decibels.
