

Recruiting the best and brightest

At HP, our recruitment philosophy is built around the concept of getting the right people in the right place at the right time. Hiring the best-qualified people is fundamental to our success. Highly capable, innovative and flexible people are the foundation for our competitive position. Since our founding, HP has demonstrated an on-going commitment to fair employment practices. Our commitment extends through every phase of the staffing process. Consistent with our business needs, we continually work to establish our leadership in recruiting and developing a diverse work force in every country in which we operate.

In addition to the above, HP has had a long-standing commitment to people with disabilities in the workplace and community and they are an integral part of our

global diversity vision to provide an inclusive environment that benefits from diversity at all levels, values individual

differences, and enables all employees to develop and contribute to their full potential while meeting the work/life demands of the 21st Century.

If you are interested in learning more about how you can join the HP family please visit <http://www.jobs.hp.com/>

For information regarding diversity at HP please visit <http://www.jobs.hp.com/content/Informations/diversity.asp?Lang=ENen>

COME JOIN A WINNING TEAM

When you join HP, you'll quickly find yourself working closely with all types of people. When you have a question, there will always be someone on hand to answer

it. When you need help, someone will provide it. When you want to do something, someone will encourage you to do it. In short, your career is in your hands, with support at every step of the way. From the world's most powerful parallel processors to desktop printers to innovative new services for the enterprise, the people of HP are constantly looking at the world we share, and putting technology to work to make it a better place. Join us. Together, we're putting technology to work for EVERYONE.
