Canadian EcoLogo

The EcoLogo program is an voluntary certification program managed by Terra Choice (TC) Environmental Marketing. This new criteria came into effect March 1, 2009. They provide third party testing & verification of environmentally preferable products. CCD-035 is the certification criteria document used for Office Machines (printers, photocopiers & multi-functional devices). The EcoLogo Program establishes strict requirements for hazardous substances, energy and paper savings, and design for extended life, reuse and recycling. Products that meet these requirements will have net environmental benefit that include reduced human health impacts, less potential for smog formation and ozone layer depletion, improved use of resources, improved energy efficiency and reduced waste generation. For detailed list of criteria & a full list of imaging & printing products that have received certification, please visit: http://www.terrachoice-certified.com/en/seeourcriteria/details.asp?ccd_id=408. ECP Agreement Number 8070 applies for all HP products, http://www.terrachoice-certified.com/en/participatingcompanies/details.asp?client_id=95.
