China SEPA Eco-Label

The China SEPA Environmental labeling program, a voluntary environmental label program issued by the State Environmental Protection Administration of China (SEPA) on March 31, 1993, became a sign of environmental labeling plan coming into effect. SEPA officially published the figure of Environmental Label in China on August 25, 1993. The figure is composed of the sun, verdant hills and water in the center. It is circled with ten rings. Its central construction stands for the environment where humans exist, and the peripheral ten rings, closely connected to each other, express that the public participate in environmental protection. At the same time, the ring and environment share a Chinese character in common, which implies that all the people are united together to protect our human environment. <http://www.sepacec.com>
