Our goal is to work collaboratively with our suppliers to encourage compliance with the following principles:

- **Legal and Regulatory Compliance:** Suppliers to ensure their operations and the products supplied to HP comply with all national and other applicable laws and regulations.
- **Continual Improvement:** Suppliers to integrate environmental, occupational health and safety, and human rights and labor policies into their business and decision-making processes. Suppliers to maintain effective management systems that are based on sound business and scientific principles, which include establishing appropriate objectives and targets, regularly assessing performance, and practicing continual improvement.
- **Information Access:** Suppliers to provide clear, accurate and appropriate reporting to HP upon request.

In selecting and retaining qualified suppliers, HP will show preference to suppliers that meet HP's Supplier Code of Conduct. (<http://www.hp.com/go/supplierE>).
