

Executive biography

James Mouton

Vice President, Industry Standard Servers Group

Hewlett-Packard Company

James Mouton is vice president of the platform division within the HP Industry Standard Server business unit, responsible for HP ProLiant servers.

Previously, Mouton served as vice president and as director of hardware engineering for the ProLiant enterprise server segment. His assignments since joining the company in 1988 have included director- and management-level responsibilities within the server and storage business units. Prior to joining the company, Mouton was with Texas Instruments.

Based in Houston, Mouton holds a bachelor of science degree in electrical engineering from Texas A&M University.
