

# Fact sheet

## Enhanced HP Indigo press 5000

### Overview

Enhancements for the HP Indigo press 5000 advance HP Indigo's outstanding performance for producing high-quality output at increased volumes. This significant upgrade offers dramatically increased speed with reduced monochrome printing costs, greater machine ease of use with a range of quality color, stacking enhancements, and a new optional stacker that delivers greater productivity. These enhancements have led InfoTrends to call the HP Indigo press 5000 "the first true universal production device."<sup>(1)</sup>

### Highlights/Specifications

- Increased printing speed in 1/0 (monochrome mode) of up to 16,000 A4 pages per hour (2-up)
- Decrease in monochrome printing costs to less than US \$0.004 per page
- Improved color plane registration and front to back registration for enhanced print quality
- Divider sheet between jobs in addition to the jog offset mode
- Stacker improvements such as high capacity proof tray and stacker illumination
- HP Professional Pantone Technology for CMYK (or CMYKOV) Pantone® emulation and assignment of Pantone colors to graphical elements
- Remote monitoring of press job management queues.
- An updated user interface that now includes European languages support (German, French, Italian and Spanish)
- HP RIP Expansion Rack for increased RIP performance (optional)
- Optional multiple paper output stackers that allow unloading of paper while the press is running for uninterrupted printing

### Price and Availability

The enhanced HP Indigo press 5000 is expected to be available in April 2006.

Installed HP Indigo press 5000 models will receive enhancement upgrades as a part of the standard HP Indigo press 5000 service contract. Except for the cost of purchasing optional capabilities, there will be no additional charges for the customer.
