

Fact sheet

HP Color Laser Glossy Presentation Paper

Overview

The new HP Color Laser Glossy Presentation Paper enables business customers to print professional, outsourced-quality color presentations, proposals and other important documents right in the office. The paper's advanced coating technology reduces paper jams and produces dark blacks and rich, vivid colors. The paper is bright, thick and heavy, providing a professional look and feel to important business documents.

Highlights/Specifications

- Enhanced glossy finish delivers bright and vivid colors
- Create professional-quality presentations and business documents in-house for a superior value and greater control and flexibility
- Produce high-quality prints, no matter which side of the paper is printed first
- Designed together with HP Color LaserJet printers for optimal quality. Also compatible with most laser printers and copiers.
- Specially engineered coating enables customers to consistently print with minimal paper jams
- Thick, heavy paper provides important documents with a professional feel
