

# Fact sheet

## HP LaserJet 1018 printer

### Overview

The HP LaserJet 1018 printer allows cost-conscious micro and small businesses to print professional-quality laser documents at an incredibly affordable price. The smallest LaserJet printer on the market today, the compact design saves valuable desktop space. With an affordable purchase price, high performance and quality and trusted HP LaserJet reliability, the HP LaserJet 1018 printer is designed to deliver significant cost savings.

### Key Features and Benefits

- Monochrome printing speeds of up to 12 pages per minute (ppm)
- Includes a standard 150-sheet input tray, a single-sheet priority input slot for specialty paper and a 125-sheet output bin
- Print a first page from PowerSave mode in less than 10 seconds
- Ultra-compact design and easy-to-connect Hi-Speed USB 2.0 port
- Host-based print driver quickly translates application output into high-quality print images. The driver uses the PC's processor and memory rather than the printer's, which lets users print more complex jobs without the cost of additional printer memory.
- HP LaserJet Q2612A Black Print Cartridge is designed with the printer to produce consistent, professional results and deliver excellent value
- Produces high-quality prints on a variety of media types, including HP Advanced Paper

### Pricing<sup>(1)</sup>
