

Fact sheet

HP Photosmart R827 Digital Camera

Overview

Take stunning 7.2-megapixel photos with the ultra-compact, metal HP Photosmart R827 Digital Camera. This camera features an indoor and outdoor 2.5-inch image display and is thin enough to slip in a pocket. With the latest generation of HP Real Life technologies, including industry-leading auto in-camera red-eye removal⁽¹⁾ and HP Design Gallery, users can easily take brilliant digital photos perfect for printing and sharing. The HP Photosmart R827 Digital Camera also features a unique, internal 3x optical zoom lens that fits into the slim camera body for clear distance shots, and the new HP steady photo anti-shake mode helps prevent blurred photos.

Key features and benefits

- 7.2-megapixels for beautiful prints and enlargements up to poster size;
- Internal HP Precision 24x total zoom, 3x optical, 8x digital;
- Big, 2.5-inch image display for framing and viewing photos and menus – indoors or out;
- HP steady photo anti-shake feature helps prevent blurred photos;
- High-quality VGA video with audio shoots at 24 frames per second and offers the ability to save still shots for printing;
- On-camera button to easily order and share photos on Snapfish using HP Photosmart Express⁽²⁾;
- Features a thin, metal design to fit easily in a pocket or purse.

Additional features

- HP Real Life technologies help take the guesswork out of digital photography, making it easy to produce great photos that are crisp, realistic and true-to-life. HP Real Life technologies include:
 - Industry-leading automatic in-camera red-eye removal⁽¹⁾
 - HP Design Gallery adds artistic effects and borders right in the camera – includes slimming feature – no PC or software required
 - Adaptive Lighting Bracketing allows users to adjust high-contrast photos to bring faces out of shadows and details out of backgrounds while automatically capturing three versions of the same scene – one with adaptive lighting off, one with adaptive lighting on low, and the final with adaptive lighting on high
 - In-camera panorama stitching allows the user to align, capture and review a panorama image on the camera and stitch up to
