

Fact sheet

HP Photosmart R967 Digital Camera

Overview

The metal, ultra-compact HP Photosmart R967 Digital Camera features a big, 3-inch LCD with a 170-degree viewing angle to make it easy to share photos with friends. The camera produces brilliant photos with 10-megapixel resolution and the powerful HP Precision 30x total zoom, and helps to prevent blurred shots with HP steady photo anti-shake mode. With the latest features such as industry-leading auto in-camera red-eye removal,⁽¹⁾ HP Design Gallery and other HP Real Life technologies, users can easily take brilliant digital photos perfect for printing and sharing.

Key features and benefits

- 10-megapixels for brilliant resolution for beautiful prints and enlargements up to poster size;
- HP Precision 3x optical lens, 10x digital zoom and 30x total zoom;
- HP steady photo anti-shake mode helps prevent blurred photos;
- Big, 3-inch image display with an extra-wide viewing angle for shooting indoors or out;
- 32 MB internal memory allows users to store photos in the camera;
- 17 shooting modes, macro multi-zone auto focus and burst mode for quality shots in a variety of conditions;
- High-quality VGA video with audio shoots at 24 frames per second;
- On-camera button to easily order and share photos on Snapfish using HP Photosmart Express⁽²⁾;
- Features an ultra-compact, durable metal body with a sleek, silver finish.

Additional features

- HP Real Life technologies help take the guesswork out of digital photography, making it easy to produce great photos that are crisp, realistic and true-to-life. HP Real Life technologies include:
 - Industry-leading automatic in-camera red-eye removal⁽¹⁾
 - HP Design Gallery adds artistic effects and borders right in the camera – includes slimming feature
 - Adaptive Lighting Bracketing allows users to adjust high-contrast photos to bring faces out of shadows and details out of backgrounds while automatically capturing three versions of the same scene – one with adaptive lighting off, one with adaptive
