

HP LaserJet M3035 Multifunction printer series

Overview

The HP LaserJet M3035 MFP offers print, copy, fax, and digital send functionality (including send to e-mail and send to network folder) in one convenient black-and-white device with the speed and reliability to make it all run smoothly.⁽¹⁾ This feature-rich MFP quickly delivers high-quality output and supports multiple workflows – simultaneously – that can help improve the efficiency and productivity of office work teams. The HP LaserJet M3035 MFP series is designed to protect critical information – in both hardcopy and electronic form – and simplify the way environments are managed with easy tools.

Key Features and Benefits

- Boosts team productivity with embedded networking, fast two-sided printing and advanced digital sending capabilities (including send to e-mail and send to network folder)
- Monochrome printing speeds of up to 35 pages per minute (ppm)
- Instant-on Technology delivers the first page out in as little as 10 seconds from PowerSave mode
- Save IT and end-user time by deploying the Universal Print Driver that provides print job and device status in a single, full featured print driver.
- Digital Sending Software (DSS) is supported by this MFP, providing LAN fax capabilities, as well as facilitating additional workflows
- With Automatic Printer wakeup, the device is ready for business first thing in the morning
- The 50-sheet reversing automatic document feeder supports two-sided copying and scanning of double-sided originals
- Networking through the HP Jetdirect internal print server for reliable sharing and simple network management tools
- Complex jobs are not a problem with a 400 MHz processor and 256 MB of memory (expandable up to 512 MB on both models)
- Private Printing protects confidential documents by allowing a job to be held from printing until released with a 4-digit Personal Identification Number (PIN) at the MFP's control panel
- HP Secure Storage Erase makes sure that eliminated data is unrecoverable
- Network authentication (LDAP, SMTP) adds another layer of security by allowing
