

HP Compaq nc6400 Notebook PC

HP recommends Microsoft® Windows® XP Professional

- Intel® Core™ Duo processors
- Broadband WWAN capabilities
- 14.1-inch widescreen displays

The HP Compaq nc6400 delivers the optimal combination of connectivity, enhanced security, and performance in a widescreen form factor to keep you more secure, productive, and connected in and out of the office.

Productivity and connectivity on the move

- Starting at just 4.4 lbs (2.0 kg) and as thin as 1.1" (29.2 mm), this thin and light notebook is built for work on the go.
- 14.1-inch widescreen displays allow documents and applications to be viewed side-by-side.
- New Intel® Core™ Duo¹ processors allow simultaneous use of multiple applications so you accomplish more in less time.
- Choice of powerful ATI graphics that deliver power-saving features, multi-monitor support, high-quality video playback, and 3D graphics or Intel® GMA 950 that deliver sharp images and intense 3D graphics while balancing memory usage between graphics and the system.
- Optional² integrated HP Broadband Wireless¹² is also upgradeable, so you can add it later. (Currently available in US only; available later in select countries subject to carrier certification¹³).
- Ultra-slim MultiBay II drive allows you to swap optical drives with secondary hard drives² for increased storage or

switch the drive with a weight saver² for optimal travel weight.

HP Professional Innovations

A suite of value-added security, ease-of-use, and reliability features that helps differentiate HP Business Notebooks from all the rest.

- Security – Solutions to help protect your notebook, data, and network connections.
 - HP ProtectTools is a portfolio of security features designed to address critical aspects of IT security including the TPM Embedded Security Chip, Smart Card Reader, and HP Biometric Fingerprint Sensor.
 - HP Privacy Filter² is a built-to-fit, security filter that narrows the viewing angle with no blurring or image distortion so your screen is visible only to you.
- Ease-of-use – Intuitive and power-saving features that boost productivity.
 - Compatible with all of the common notebook accessories² shared across HP's Business Notebook line.
- Reliability -- Built to perform and proven to last.
 - HP Mobile Data Protection System 3D incorporates motion detection and helps protect data during normal use from shock and vibration.
 - Magnesium display enclosure and a magnesium reinforced base provide

a durable structure in
a very thin and light
design.

HP Compaq nc6400 Notebook PC

HP recommends Microsoft® Windows® XP Professional

Operating system	Preinstalled Genuine Windows XP Professional Edition Genuine Windows XP Home Edition FreeDOS	Supported Genuine Windows 2000 (drivers downloadable from http://www.hp.com)

Expansion solutions ²	HP Docking Station	HP Advanced Docking Station HP External MultiBay II HP Monitor Stands
Warranty	Three-year standard parts and labor limited warranty, depending on country (upgrades available ²), one-year limited warranty on primary battery	

1 Dual Core is a new technology designed to improve performance of certain software products. Check with software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology.

2 Sold separately or as an optional feature.

3 Above 3-GB, all memory may not be available due to system resource requirements.

4 Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract.

5 The term "10/100/1000" or "Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high-speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required.

6 Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to 9-cell primary and 12-cell Ultra Capacity batteries.

7 Dual Channel is only supported when the system is configured with DDR2 symmetric memory (i.e. 2x256).

8 Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media.

9 For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8 GB of memory is reserved for system recovery software.

10 The new HP Smart A/C Adapters will not be backwards compatible to prior generation notebooks. However, a dongle will be available to support existing notebooks in the field. Older HP adapters will not be forward compatible to the 2006 HP Business Notebooks.

11 Double Layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players.

12 Wireless use requires separately purchased service contract. Access limited to coverage area of Verizon Wireless. Check with Verizon Wireless for availability and coverage in your area. Available in US only.

13 Wireless use requires separately purchased service contract.
