

HP Compaq nx7400 Notebook PC

HP recommends Windows® XP Professional

Affordable Widescreen Mobility – Optimal combination of features including Intel® Core™2 Duo processors and 15.4-inch widescreen displays

The HP Compaq nx7400 offers an affordable, thin and light mobile office by providing the optimal combination of features that maximize productivity.

Productivity on the move

The tools you need to accomplish more in less time.

- Starting at 5.6 lbs (2.54 kg) and 1.2" (30 mm) thin, the HP Compaq nx7400 utilizes a strong yet lightweight magnesium-alloy frame for best-in-class mobility in a 15.4-inch widescreen thin and light notebook.
- Choice of either a 15.4-inch TFT WXGA display with or without BrightView technology or a 15.4-inch TFT WSXGA+ wide-viewing angle display
- New Intel® Core™2 Duo⁷ processors allow simultaneous use of multiple applications so you accomplish more in less time.
- The optional double-layer DVD+/-RW with LightScribe technology gives you twice the storage of single layer disc and lets you burn a custom label directly to your disc.^{2,3,6}

Power and connectivity on the go

The connectivity and power that keeps you going.

- A variety of wired and wireless⁴ communication solutions help you stay connected.
- With HP's selection of extended-life batteries,⁵ you'll get power that goes with you.

HP Professional Innovations

A suite of value-added security, ease-of-use, and reliability features that helps differentiate HP Business Notebooks from all the rest.

- Security – Solutions to help protect your notebook, data, and network connections.
 - HP ProtectTools is a portfolio of security features designed to address critical aspects of IT security.
- Ease-of-use – Intuitive and power-saving features that boost productivity.
 - Compatible with all of the common notebook accessories⁶ shared across HP's Business Notebook line.
 - HP Fast Charge Technology charges the primary battery up to 90% in 90 minutes then charges the secondary battery to keep you on the go.⁸
 - HP Smart AC Adapter can be shared across HP's 2006 Business Notebooks and includes surge protection.¹
- Reliability – Built to perform and proven to last.
 - HP Mobile Data Protection System helps protect data during normal use from shock and vibration.

1. The new HP Smart A/C Adapters will not be backwards compatible to prior generation notebooks. However, a dongle will be available to support existing notebooks in the field. Older HP adapters will not be forward compatible to the 2006 HP Business Notebooks. **2.** Double Layer discs can store more data than single layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players. **3.** LightScribe creates a grayscale image similar to black and white photography. LightScribe media required and sold separately. **4.** Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract. **6.** Sold separately or as an optional feature. **7.** Dual Core is a new technology designed to improve performance of certain software products. Check with software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology. **8.** Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to 9 cell primary and 12 cell Ultra Capacity batteries. **9.** Dual Channel is only supported when the system is configured with DDR2 symmetric memory (i.e. 2x256). **10.** Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided – Version 1.0 media. **11.** For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8GB of memory is reserved for system recovery software. **12.** Above 3-GB, all memory may not be available due to system resource requirements. **13.** Shared video memory (UMA) uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs.
