

Fact sheet

PC Skins for HP Desktops, Notebook PCs and Monitors

Overview

Gone are the days when everyone's PC looks the same. Now it is easy to individualize HP notebooks, desktops or monitors with PC Skins from SkinIt™. With hundreds of fun designs to choose from, HP's new PC Skins offer high-quality, vibrant images that are simple to apply and easy to remove and replace. Digitally printed with the highest HP digital press quality and crafted to fit the exact dimensions of HP's line of consumer notebook and desktop PCs and monitors, Skins have a distinct look that fits individual personalities.

Key features and benefits

- Use skins to make a PC blend into the room: solid colors, abstract images, colors, fabric, and flowers
- Use skins to express yourself with licensed content including: Warner Bros® – Tweety Bird®, Spiderman®; Hanadeka – Big Eye Pets®; Wyland®; NBA® teams; and MLB® teams. Much more license content brands coming soon!
- A perfect fit: PC Skins are orderable by model number via www.hp.com/go/skins, so users are guaranteed a perfect fit with their personal HP notebook, desktop or monitor.
- Easy to apply and remove: Each PC Skin comes with simple instructions that are intuitive and easy to follow and are easy to apply and remove. Each Skin uses a 3M adhesive and film that allows for easy repositioning of the Skin when applying. It also allows for easy removal, guaranteeing that consumers can get back to the original look of their device if they want to.
- Import images: Users can upload their own designs and images and create unique skins directly on HP's website.
