

Customer Reference Sheet

HP Business Notebook Customers

HP Compaq nc2400 Notebook PC:

"The HP Compaq nc2400 Notebook PC is easy to use, and it's the perfect size and weight for students to handle. The enterprise-level security is phenomenal, and unauthorized access is prohibited with the biometric capability. Setting up notebook computer access for students via fingerprints will make it so simple, especially for our younger students."

– Thuan Nguyen, director, Project Management and Technical Services, Kent School District (Kent, Wash.)

HP Compaq tc4400 Tablet PC:

"Having been on board with every generation of the HP Compaq Tablet PCs, the new HP Compaq tc4400 is a dramatic change. The boost in power and performance from the new dual-core processor is an absolute benefit. Getting more speed and power without draining the battery is paramount. With the students having their tablets 24x7, the introduction of biometrics will play an important role in preserving their privacy and overall security."

– Kenneth Collura, director, Technology, Diocese of Columbus

"The new HP Compaq tc4400 Tablet PC has a noticeable performance increase with dual-core processing. Having the extra power will help for virtualization on a mobile platform and the HP recovery is a great feature for service. We also like the accelerometer, which stabilizes the hard drives. It's a nice solid device that we plan to order shortly."

– Vince DiStasi, chief information officer, Grove City College (Grove City, Pa.)
