

Executive biography

Thomas E. Hogan
Senior Vice President, Software

Hewlett-Packard Company

Thomas E. Hogan serves as senior vice president for HP's Software business. He has responsibility for all software functions, including sales, marketing, engineering, product development, operations and technical support. HP's Software portfolio is focused on linking business and IT and managing IT as a business.

Prior to joining HP, Hogan served as president and chief executive officer of Vignette, a publicly held software company specializing in enterprise content management. During his tenure as CEO from 2002-2006, Hogan transformed Vignette through a series of four strategic acquisitions, leading the company to sustained growth and profitability.

Hogan began his career at IBM in 1982 and held a variety of executive posts, including his last assignment as vice president of midrange servers for the Americas region in 1999. He spent two years prior to his Vignette assignment as senior vice president of global sales and operations for Siebel Systems, where he helped quadruple total revenues.

Hogan holds a master of management degree from Northwestern University's Kellogg Graduate School of Management, graduating with distinction and concentrations in finance, international business and organizational behavior. He also holds a bachelor of science in biomedical engineering from the University of Illinois.

Based in Austin, Texas, Hogan has served on the board of the United Way since 1997, in addition to serving on other public boards.
