## ProCurve Networking by HP 1400 and 1700 Series Switches

### Overview

The affordable, high-quality Layer 2 ProCurve 1400 and 1700 Series switches are easy-to-use solutions designed to allow small and growing companies that do not have a large IT staff or extensive networking expertise to focus on running their businesses, not running their networks.

### Key features and benefits

- Ideal for deployment in open spaces, both the 1400 and 1700 Series switches feature silent operation via a fan-less design, resulting in energy-efficient operation.
- Like all ProCurve products, the new switches are based on industry standards for superior interoperability in the multi-vendor network environments that are common in most networking schemes.
- The switches come standard with ProCurve's industry-leading lifetime warranty, which features next-business-day advance replacement, free telephone and email support, and free software updates for as long as the customer owns the product.
- The ProCurve Switch 1400 Series consists of two fan-less unmanaged Gigabit switches, the 1400-24G and the 1400-8G, featuring high-bandwidth connectivity and plug-and-play simplicity for enhanced collaboration.
- The ProCurve Switch 1700 Series consists of two fan-less web-managed switches, the 1700-24 and the 1700-8. Both provide reliable, affordable network connectivity with basic management and configuration capabilities, such as VLANs and link aggregation, which are configured via an intuitive web interface.

### Pricing and availability<sup>(1)</sup>

ProCurve Switch 1400-8G: \$109 (U.S. list price), available April 1  
ProCurve Switch 1400-24G: \$379 (U.S. list price), available April 1  
ProCurve Switch 1700-8: \$109 (U.S. list price), available April 1  
ProCurve Switch 1700-24: \$279 (U.S. list price), available April 1

<sup>(1)</sup> Estimated U.S. list prices. Actual prices may vary.
