

## HP Scanjet G4010 Photo Scanner

### Overview

The HP Scanjet G4010 Photo Scanner provides breakthrough innovation with six-color/96-bit photo scanning. A built-in adapter makes it easy to convert multiple 35-mm slides and negatives into digital files at once. With included HP Real Life technologies, users can easily restore old or damaged photos, slides and negatives by removing dust and scratches, restoring faded color, automatically removing red-eye and enhancing detail in dark areas of photos. Additionally, the HP Scanjet G4010 Photo Scanner features four one-touch task buttons to quickly organize, edit, share and save scans.

### Key Features and Benefits

- Enjoy high-definition scans with superior six-color/96-bit scanning and 4,800 x 9,600-dpi resolution.<sup>(1)</sup>
- Bring new life to treasured memories – restore old or damaged photos, slides and negatives that have been handed down for generations with HP Real Life technologies.
- Scan five 35-mm slides or six negative frames at once, using a built-in transparent media adapter (TMA).
- Quickly and easily scan up to four 4 x 6-inch photos, and automatically save them as individual files – no need to crop and resize.
- Produce high-quality scans of various paper sizes and 3D objects with a letter-size, portrait-oriented scanning bed and adjustable lid.
- With four front-panel task buttons, quickly and easily scan, make reprints, copy documents and save images to PDF at the touch of a button.
- Conveniently organize, edit, share and save scans in one click with HP Photosmart software and HP Photosmart Share.
- Save energy – Energy Star® '07 compliant.
- Support for Microsoft Windows Vista™ will be added in 2007 after the software becomes available.

### Pricing and Availability

Estimated U.S. street price of \$149.<sup>(2)</sup> Expected to be available for purchase in January 2007 in the United States.

<sup>(1)</sup> Maximum resolutions may be affected by PC system factors.

<sup>(2)</sup> Actual price may vary.
