

HP Jetdirect 630n IPv6 Gigabit Ethernet Print Server HP Jetdirect en 1700 IPv6 Print Server

Overview

Maximize IT efficiency and optimize device utilization with the new HP Jetdirect print servers, including the high-performance HP Jetdirect 630n IPv6 Gigabit Ethernet Print Server and HP Jetdirect en 1700 IPv6 Print Server. Upgrade with confidence, as the print servers support both IPv4 and IPv6, enabling users to retain existing HP printers and multi-function printers even after upgrading. The robust print servers deliver premium compatibility with Windows Vista™ and work seamlessly with a wide variety of operating systems.

Key features and benefits

- Improve productivity and share easily with printing, copying, scanning and faxing services over the network
- Efficiently monitor and maintain from one to 15 HP printers simultaneously with HP Easy Printer Care
- HP Embedded Web Server offers remote, one-to-one network configuration through an intuitive web browser interface
- HP Web Jetadmin provides network managers a single support tool to install, monitor and troubleshoot a wide range of network-connected devices
- The HP Jetdirect 630n is a full-featured EIO print server, offering superior performance, 8 MB of built-in Flash memory and compatibility with a wide variety of operating systems, including Microsoft Windows, Macintosh, Linux, Novell and Citrix
- The HP Jetdirect 630n features advanced network configuration and management options to easily manage complex print jobs
- The HP Jetdirect en 1700 delivers optimal performance with Hi-Speed USB 2.0 technology and allows workteams to easily access USB-compatible HP printers or all-in-ones
