

HP Output Management Web Console: Job Manager Powered by SAP NetWeaver

Overview

Gain control and reduce the loss or delay of revenue through reliable enterprise information delivery with the HP Output Management Web Console: Job Manager (powered by SAP NetWeaver), a powerful web-based tracking and management solution for both administrators and end users. The console provides reliable, seamless delivery of business-critical documents to multiple destinations within an enterprise, as well as extensive management and delivery features. Accelerate business-cycle time by streamlining business workflows and reduce costs by proactively and centrally managing enterprise information delivery with the web-based interface that conveniently monitors and manages output jobs from a web browser for job tracking and management in the SAP NetWeaver landscape.

Key features and benefits

- Centralized, automated management of output resources for the entire network environment
- Uses a single Web client for simplified job tracking and management that makes it easy to track and manage print jobs
- Resubmit, modify, pause, resume, refresh or cancel jobs from any standard web browser, providing a convenient alternative to command-line applications
- Reduce administrative and troubleshooting time by managing multiple jobs across platforms and domains
- Expanded functionality: the HP Output Management Web Console is fully integrated with HP Output Server version 3.5. Authentication is available via SAP applications
- Provides important, real-time feedback on the status of deliveries, retries and retains jobs for quick resolution of output-related problems, and automatically transforms documents to the proper output format
- Delivers documents to any destination: print, fax, email, web or FTP
- Supports multiple server and network platforms and works with multiple applications simultaneously
- HP Output Management Professional Services provide the appropriate assessment, implementation, integration and other customizations required to meet business needs

Pricing and availability

The HP Output Management Web Console is available with no additional license or

maintenance fees for customers with valid HP Output Server maintenance contracts and is currently available for download from www.hp.com/go/outputmanagement.
