

Dan Rueckert

Worldwide Practice Director, Service Management and Security Practices,
Consulting and Integration, HP Services

Hewlett-Packard Company

Dan Rueckert is the worldwide practice director for the service management and security practices within the Consulting and Integration unit of HP Services. Rueckert brings previous experience from HP Software where he was director of the global ITIL program and business development for the energy/utilities industry sector.

Rueckert has more than 25 years of experience in information technology, project management and business consulting in energy/utilities. He was responsible for and involved with a wide range of successful assignments covering systems integration, as well as product and operational management of large-scale ERP implementations. He has also conducted business case and information technology strategies, solution development, business process studies around maintenance and asset management, and the development of implementation methodologies for technology. He has extensive experience in establishing multi-national operations in Australia, Canada and Brazil.

Rueckert held previous positions with Computer Sciences Corp. (CSC) and BearingPoint, and spent approximately 15 years at Pacific Gas & Electric Company in the Generation and Computer & Telecommunications Services business areas. He holds a B.S.M.E. -- University of Washington, and a program certificate, Stanford Center of Integrated Facility Engineering. He is also a registered mechanical engineer (California).
