

## HP Photosmart Pro B9180 Photo Printer

### Overview

The HP Photosmart Pro B9180 Photo Printer delivers exceptional image quality with HP Vivera pigment ink technology, combined with the printer's professional colors, and enables accurate and consistent color reproduction. HP's third-generation gray ink is more neutral than ever before, allowing for exceptionally smooth transitions and detail. Eight individual high-capacity ink cartridges enable high-volume printing with efficient printing speeds – producing 4 x 6-inch photos in as fast as 10 seconds and 13 x 19-inch photos as fast as 1.5 minutes – ideal for professional photographers and advanced amateurs. Users can print exceptional photos on digital fine art media including canvas, photo rag, watercolor, stiff pre-matte and film up to 1.5-mm thick, as well as improved HP Advanced Photo Paper.

### Key features and benefits

- Eight-color HP Vivera pigment inks produce gallery-quality photos and offer the user excellent image quality, durability and performance on a broad array of media.
- Exceptional durability – waterproof photos<sup>(1)</sup> that resist fading for more than 200 years.<sup>(2)</sup>
- HP Photosmart plug-in for Adobe Photoshop® automatically synchronizes Photoshop and printer driver for single user interface and color management.
- Efficiently designed individual ink cartridges allow users to replace only the ink colors used – ideal for high-volume printing.
- Fast printing speeds – print 13 x 19-inch photos as fast as 1.5 minutes and 4 x 6-inch photos as fast as 10 seconds.
- Closed loop calibration system keeps photo color consistent, print after print.
- Electrostatic drop weight detection system automatically compensates for a nozzle not working, alerting you when the printhead needs cleaning or in the unlikely event of it needing to be replaced.

### Additional features

- RIP software option provides access to enhanced color management tools for professional printing.
- Plug the printer into network using Ethernet port.
