

HP Scanjet G4050 Photo Scanner

Overview

The HP Scanjet G4050 Photo Scanner provides breakthrough innovation with 6-color/96-bit scanning for photos, slides and negatives. This scanner offers increased capacity with a built-in transparent materials adapter that can hold up to sixteen 35 mm slides or 30 negative frames for scanning of multiple images. The HP Scanjet G4050 Photo Scanner also features HP Real Life technologies with faded color restoration and automatic red-eye removal, allowing users to easily restore valuable memories. Four one-touch task buttons, along with included HP Photosmart software and HP Photosmart Share, make it easy to restore, enhance and share photos.

Key Features and Benefits

- Enjoy high-definition scans with superior 6-color/96-bit scanning and 4800 x 9600 dpi resolution.¹
- Using included HP Real Life technologies, automatically remove red-eye, dust and scratches while enhancing details in dark photos to bring new life to old or damaged photos.
- Effortlessly scan stacks of film, using a built-in adapter that holds up to sixteen 35 mm slides or thirty 35 mm negative frames at once, with additional infrared LED for precise hardware dust and scratch removal.
- Quickly and easily scan up to four 4 x 6-inch photos and automatically save them as individual files – no need to crop and resize.
- Scan photos, documents or film – even make a copy or scan to PDF – for easy sharing with four front-panel one-touch task buttons.
- Produce high quality scans of various paper sizes and 3-D objects with a letter-size, portrait-oriented scanning bed and adjustable lid.
- Conveniently organize, edit, share and save scans in one click with HP Photosmart software and HP Photosmart Share.
- Save energy - Energy Star '07 compliant.
- Support for Windows Vista will be added in 2007 after Vista becomes available.

Pricing and Availability

Estimated U.S. street price of \$199.²

Expected to be available for purchase in January 2007 in North America.
