

HP Color and Monochrome Transparencies

Overview

HP's new Color and Monochrome Transparencies enable business customers to produce professional-quality business presentations and marketing materials for meetings, events and more. Custom-engineered for color and monochrome HP LaserJet printers, the transparencies are thick, durable and smudge-resistant, allowing customers to print laser-quality display graphs, text and images in a wide range of bold colors.

Key Features and Benefits

- One transparency for both color and monochrome printing
- Produce professional-quality transparencies with sharp black-and-white text and vivid, bright colors
- Thick, durable and resistant to smudges and scratches
- Keep presentations in focus – heat-resistant material minimizes waves and ripples for crisp output
- Reduce misfeeds and paper jams using transparencies optimized for HP color and monochrome LaserJet printers
- Present HP transparencies multiple times without needing to reprint
- Optimized for use with HP ColorSphere toner

Other Technical Specifications

- 4.25 mil
