

HP 7" df750 Series Digital Picture Frame

HP df750 Digital Picture Frame gives you an innovative and easy way to view digital pictures without a computer!

HP df750 offers a high resolution picture display, and supports commonly used memory cards. You can view a single picture or a complete slideshow with adjustable time interval. You can also play music, as it supports audio files such as MP3. Its built-in USB port allows support for USB thumb drives, and adds more flexibility for picture sharing.

The df750 comes with a sleek remote control that lets you control the display with the touch of a button.

Creative and Fun

- Intuitive user interface
- Supports commonly used memory cards
- An easy way to share your favorite pictures and videos
- Watch a slideshow of pictures while playing your favorite music

HP df750 Series Digital Picture Frame
