

HP Jetdirect 690n Wireless Print Server

Overview

Maximize IT efficiency and maintain enterprise-class security with the new HP Jetdirect 690n Wireless Print Server. The print server delivers robust security options, including IPSec, password protection and Access Control list to help secure business-critical data with advanced authentication and encryption.

Minimize costs of administration and deployment with new wireless functionality that allows companies to seamlessly standardize their wireless printing environments and infrastructure by providing 802.11g wireless printing connectivity to telecommuters and local or remote offices. Customers also can upgrade with confidence with built-in IPv4 and IPv6 support, enabling users to retain existing HP monochrome, color and multifunction printers.
