

Protect, connect, Share...

- Worry free file and drive image backup for PCs to keep all of your data protected. Includes PC client backup software.
- Automatic offsite backup with Spare Backup, including 2GB free trial. <sup>(1)</sup>
- Central file access and storage for computers across your network.
- Secure remote access to files when you're away from the office.
- Base capacities of 1 Terabyte, and 1.5 Terabytes. Add capacity through 2 USB ports.
- Directly connect to your LAN router, Gigabit Ethernet speeds.
- Configurable for RAID 1 mirroring for an extra level of protection.
- Backed by HP's award-winning product help and support. Direct knowledgeable assistance online and by phone.

## Automatically protect your increasingly digital world

As you accumulate increasing amounts of digital content, keeping everything protected becomes a daunting task. The HP Media Vault Pro takes the worry out of data protection for PCs by setting up automatic backup for your important media and files.

- Protect critical files. Automatic file backups can be set to run weekly, daily or continuously – as often as you need.
- One step PC restore in the event of a hard drive failure, virus, or spyware infection.
- Choose the added protection of RAID 1 (mirroring). With two hard drives you can keep an extra copy of your most important media and files.
- Take a copy offsite. For the ultimate in data protection, you can backup your HP Media Vault Pro to an external hard drive and take the copy to a separate location for safety.
- Spare Backup service provides continuous and automatic secure offsite backup of critical files using your high speed internet connection. <sup>(1)</sup>

## Enjoy your digital experiences when and where you want

Multiple computers in your office often means files, documents, photos, music and videos are scattered all over the place and difficult to locate. The HP Media Vault Pro provides a central copy of all your media and files for easy access from other computers in your network. Your HP Media Vault Pro also provides remote access to your most important files from any internet-connected computer.

- Access your files and enjoy your media from computers on your home or small business network.
- Remotely access your files from any computer connected to the internet.
- Stream photos, music, and video files to computers on your network.

## Easily share with your business associates

Sharing files, photos or documents via the web or email can be a time-intensive and cumbersome endeavor. Your HP Media Vault Pro allows secure file access to specified people outside your office. Using HP Photo Webshare, you can create a photo website on your HP Media Vault Pro.

- Authorized visitors can remotely view approved folders containing relevant documents, files, photos, etc.
- Set up groups (such as: business associates, customers, friends, etc.) for sharing different files and photos via HP Photo Webshare. You can even give specific visitors permission to add their own photos to share as well.
- HP Photo Webshare links to Snapfish for easy printing.

## Software

<b>Operating System</b>	<ul style="list-style-type: none"> <li>Linux</li> </ul>
