

Russ Daniels

Vice President and Chief Technology Officer, Cloud Services Strategy

Hewlett-Packard Company

Russ Daniels is vice president and chief technology officer of Cloud Services Strategy at HP. In this role, he sets the overarching business and technology strategies for HP's approach to cloud computing.

Daniels has more than 25 years of experience in the technology industry, specializing in software architecture, enterprise management and software development methodologies. He has filled a wide range of staff and line management roles and run his own Internet services business.

From 2002 to 2007, Daniels was chief technology officer of Software for the Technology Solutions Group at HP. During his tenure, the business tripled in revenue and emerged as a significant player in the software industry. In 2006, InfoWorld declared Daniels one of the industry's top 25 chief technology officers.

Prior to joining HP in 1999, Daniels spent 15 years at Apple, where he held a variety of technical and management positions, culminating in his role as a senior software architect.

Daniels holds a bachelor's degree from Ohio University.
