

Newly Formulated HP ColorSphere Toner

Overview

Newly formulated [HP ColorSphere toner](#) helps customers produce print-shop quality documents in-house by delivering a wider range of colors, higher gloss, and improved photo resolution than previous generations. Building on 20 years of innovation, this new ColorSphere formulation achieves a noticeable difference in text and image sharpness, color intensity and photo quality.

Designed exclusively for new HP Color LaserJet personal and small business printers' launching in Spring 2008, this formulation was engineered with the new printers to deliver consistent print quality and high-speed performance. In addition, a smaller, redesigned cartridge - made possible by the efficient usage of the toner - enables a small, more compact printer.

Key Features and Benefits

- Produce professional quality to suit every element on the page – vibrant colors for graphics, natural tones for photo images, and sharp text for written materials – often for less than the cost of outsourcing.
- Proven all-in-one HP cartridge design delivers consistent results, page after page, cartridge after cartridge.
- Optimize results using HP specialty or business publishing papers and create print-shop quality documents without leaving the office.
- General office papers with the ColorLok Technology logo provide consistent, high-quality color documents, page after page.
- Improve productivity with easy supplies management: receive convenient alerts and easily shop for supplies using HP SureSupply.⁽¹⁾ For small businesses, HP Easy Printer Care facilitates management of up to 15 printers and enables consolidated ordering of replacement supplies.
- Printers include pre-installed introductory print cartridges that yield approximately 750 pages of color, and 750 pages black.⁽²⁾

Compatibility

- HP Color LaserJet CP1515n and CP1518ni printers
- HP Color LaserJet CP1215 printer
- HP Color LaserJet CM1312 MFP (multi-function printer)⁽³⁾
