

Barry O'Connell

Director, Data Center Transformation

Hewlett-Packard Company

Barry O'Connell is director of Data Center Transformation in the Consulting and Integration business unit at HP. In this capacity, he works with many corporations and public sector organizations worldwide assisting them in transforming their data center operations.

Previously, O'Connell led a number of consulting practices, including HP's IT Transformation and IT Governance practices. He also was responsible for leading HP's own infrastructure transformation initiative, which included a \$1 billion cost reduction program implemented across the IT, human resources, finance, procurement and real estate functions.

O'Connell also spent a one year secondment engaged with the U.K. Government's Cabinet Office as part of an initiative to restructure the United Kingdom's public sector through the implementation of shared services.

O'Connell has held a number of IT management roles, including director of the IT Application Development organization at HP and chief information officer for HP Services EMEA.
