

HP Digital Fine Art Media

Overview

HP Digital Fine Art Media are designed to meet the needs of artists and photographers who create fine art reproductions and photographs, ranging from museum-quality display prints to cost-effective home decor and business collateral. Designed to work seamlessly with the HP Photosmart Pro B8850/B9180 Photo Printers, along with the HP Designjet Z Photo Printer Series, HP's portfolio of fine art media offers a broad range of color, texture, thickness, finish and durability with media such as HP Collector Satin Canvas, HP Aquarella Art Paper, HP Hahnemühle Textured Fine Art Paper, in addition to a variety of other fine art and canvas materials.

HP Digital Fine Art Media provide customers with exceptional-quality, long-lasting, fade-resistant images, along with maximum productivity and workflow flexibility.

To further expand media choices for the HP Designjet Z Photo Printer Series, HP formed a strategic alliance with Hahnemühle FineArt – the company that has supported artists for 400 years developing and producing industry-renowned fine art paper. In addition to co-developing three fine art papers – HP Hahnemühle Smooth Fine Art Paper, HP Hahnemühle Textured Fine Art Paper and HP Hahnemühle Watercolor Paper – a total of 21 media types from Hahnemühle's Digital Fine Art Collection that includes both Art Line and Photo Line papers are compatible with HP Designjet Z Photo Printer Series. Profiles of Hahnemühle's 21 papers are available at www.hahnemuehle.com.

HP Collector Satin Canvas

This premium, heavyweight canvas is ideal for printing museum-quality satin-finish prints with consistent, precise color and sharp detail on a natural white cotton canvas for a traditional fine art look. Key features and benefits include:
