

Return envelopes are removed and cartridges are sorted at the recycling plant.

HP's Planet Partners program provides free shipping with envelopes available at www.hp.com/recycle and included in many packages.

HP inkjet cartridges with recycled plastics meet the same high-performance standards as cartridges with virgin plastics.

HP's Closed Loop System for Plastics Recycling

Simplified Process Flow

The multi-phase recycling process begins.

Part of the recycling process includes separating the unrefined plastic (PET).

Customers count on outstanding quality and reliability when selecting Original HP print cartridges.

Suite of additives

Recycled PET (RPET) Refinement

RPET Compounding

HP's use of recycled plastics in Original HP inkjet cartridges closes the loop.

Recycled Bottle Resin
