

Paul Miller

Vice President, Worldwide Marketing, Enterprise Storage and Servers,
Technology Solutions Group

Hewlett-Packard Company

Paul Miller is vice president of worldwide marketing for Enterprise Storage and Servers (ESS) at HP. Miller and his team are responsible for promoting HP's industry-leading storage and servers worldwide and for driving the evolution of HP's Adaptive Infrastructure vision.

Previously, Miller served as vice president of marketing for Industry Standard Servers (ISS) and HP BladeSystem, spearheading the marketing strategy for the fastest-growing division in ESS. Under Miller's leadership, ISS extended the HP ProLiant business with leading innovations and go-to-market campaigns. Miller played an important role in unifying and driving the growth of HP's bladed architectures, which are a cornerstone of the company's Adaptive Infrastructure strategy.

Miller has more than 20 years of experience in the high-tech industry. Prior to his time at Compaq and HP, he held positions at IBM in mechanical engineering, software development, sales, management, planning and strategy.

Miller earned a bachelor's degree in mechanical engineering from the University of Wisconsin and a master's degree in business administration from the University of California at Berkeley's Haas School of Business, with a dual emphasis on marketing and finance.
