

## HP ProCurve 1810G Switch Series

### Overview

The new HP ProCurve [1810G Switch Series](#) enables small and midsize businesses (SMBs) to improve productivity with affordable gigabit connectivity.

SMBs face a unique set of challenges as their business grows, and require a reliable, simple-to-use network infrastructure that can easily adapt to meet the needs of expanding businesses. With the new 1810G switches, SMB customers can easily upgrade to gigabit network speeds that can be configured and maintained without a large or specialized IT staff.

The 1810G switches include flexible deployment options to offer customers the choices that best fit their individual needs. These switches are available with a fan-less design for silent operation and mounting options that allow customers to easily deploy the switches in any location. The eight-port model features a Power-over-Ethernet (PoE) option for connectivity in locations without readily available power supplies.

Additional benefits and features of the 1810G switches include:

- New deployment flexibility – eight or 24-port models can be safely placed in any location with the Kensington lock, available for physical theft protection.
- Improved energy efficiency – switches help reduce energy consumption with automatic settings that place ports and LEDs in low power mode when not in use
- New network security capabilities – provide network security protection against denial-of-service attacks
- Enhanced network availability – prevent slow performance and network downtime with detection and protection capabilities to prevent network loops

The 1810G is supported with the [ProCurve Lifetime Warranty](#)<sup>(1)</sup> to help customers better manage their overall networking expenses by providing value and choice for their business applications.

### Pricing and availability

The ProCurve 1810G series switches are currently available. U.S. list prices:

- HP ProCurve 1810G-24 Switch starts at \$519
- HP ProCurve 1810G-8 Switch starts at \$209

### About HP ProCurve Networking

As part of the HP Technology Solutions Group, HP ProCurve is the Network of Choice for best-in-class solutions, products and services for wired and wireless networks.

HP is a worldwide leader in Ethernet switch market revenue and ports according to Dell'Oro Group.

More information about HP ProCurve is available at <http://www.procurve.com/>.

<sup>(1)</sup> For as long as a product is owned, with next-business-day advance replacement (available in most countries). The following hardware products and their related series modules have a one-year hardware warranty with extensions available: HP ProCurve Routing Switch 9300m series, HP ProCurve Switch 8100f series, HP ProCurve Network Access Controller 800, and HP ProCurve DCM Controller. The following hardware mobility products have a one-year hardware warranty with extensions available: HP ProCurve M111 Client Bridge, HP ProCurve MSM3xx-R Access Points, HP ProCurve MSM7xx Mobility and Access Controllers, HP ProCurve RF Manager IDS/IPS Systems, HP ProCurve MSM Power Supplies, HP ProCurve 1 Port Power Injector, and HP ProCurve CNMS Appliances. Disk drives in the HP ProCurve ONE Services zl modules have a five-year hardware warranty. Standalone software, upgrades or licenses may have a different warranty duration. For details, refer to the ProCurve Software License, Warranty and Support booklet at [www.procurve.com/warranty](http://www.procurve.com/warranty).

<sup>(2)</sup> Estimated U.S. prices. Actual prices may vary.
