

Janice Zdankus

Vice President of Infrastructure Software and Blades Services

Hewlett-Packard Company

Janice Zdankus is vice president of Infrastructure Software and Blades Service in the Technology Solutions Group at HP. She is responsible for profitable revenue growth and customer satisfaction of worldwide software support services, a high-growth segment of the HP Services portfolio. She is also responsible for customer experience and quality for the company's Enterprise Infrastructure Software products.

Previously, Zdankus led Worldwide Warranty Planning and Strategy for the Enterprise Storage and Server Group at HP. Prior to that, she was senior research and development director leading the diagnostics management laboratory. Since first joining HP in 1985 as a software design engineer, Zdankus has held several other senior leadership positions in marketing, support and business planning.

Zdankus earned bachelor degrees in computer science and industrial management from Purdue University. She also holds a Masters of Business Administration from Santa Clara University in California.
