Ottavio Carparelli manages the Service Delivery Infrastructure and Applications (SDI&A) solution domain inside the Communication and Media Solutions business at HP. SDI&A is focused on helping service providers offer their customers a cost-effective, rich and personalized communication experience, allowing service providers to achieve quantifiable and quantified return on investment.

Carparelli directly manages the product and solutions portion of the SDI&A solution domain (i.e., the research and development, and solution and product management teams), and has overall responsibility on the profit and loss statement (P&L) of the SDI&A solution domain.

After obtaining a degree in Information Technology from University of Bari, Italy, and a brief experience as a telecommunications software developer in Olivetti Systems and Networks, Ottavio joined HP in France in 1988 as a technical consultant for the Telecommunication Industry.
