

PEACE OF MIND FOR YOUR NEW PC

Convenient and automated, HP Support Assistant helps you get the most out of your PC.

HP Support Assistant makes it easier than ever to own and use your personal computer. Part of HP Total Care services and support, this simple software application comes pre-installed on your Microsoft® Windows® 7 PC.* It helps you maintain your PC performance and resolve problems with automated updates and tune-ups, onboard diagnostics, and guided assistance.

Keep your PC running at its best.

HP Support Assistant is your ticket to a smooth-running, up-to-date PC:

- Let HP Support Assistant perform tune-ups automatically with your permission.
- Receive preventative updates from HP and install them automatically.
- Apply suggested actions and fixes to keep your PC in tip-top shape.

Save valuable time.

HP Support Assistant is the one place to go for support:

- Quickly find product specifications and answers to common questions.
- Access online learning resources—and other topics related to your PC.
- Run automated diagnostics before calling support.
- Find your local HP support contact options.
