

Valerie A. Logan

Global Strategy and Planning Leader, Business Intelligence Solutions, HP Software & Solutions

Hewlett-Packard Company

Valerie Logan is global strategy and planning leader for the Business Intelligence Solutions (BIS) unit at HP, where she leads business strategy, planning and thought leadership globally.

Prior to joining BIS, Logan led the creation of HP's Worldwide Information Management Consulting Practice. She is committed to establishing HP as the premier provider of innovative business intelligence and information management solutions globally.

Logan is an active thought leader in the areas of business intelligence strategy, roadmap and governance to support clients with their evolution in this space. She has more than sixteen years of experience in the areas of integrated business intelligence, business performance management, process management, large-scale program management, knowledge management, change management and advanced analytics.

Logan joined HP in early 2007 as part of the company's acquisition of Knightsbridge Solutions. Her experience includes a year with Knightsbridge focused on development and facilitation of the organization's growth strategy; more than four years with the IBM/PricewaterhouseCoopers Global Business Intelligence Consulting Practice leading the internal programs that supported more than 2,000 business intelligence professionals globally; five years in consulting at Price Waterhouse leading large-scale business intelligence programs for financial services clients; and five years within the telecommunications industry enabling business process transformation through integrated measurement and analysis.

Valerie holds a Bachelor of Science in Mathematics from the State University of New York College at Buffalo and a Master of Science in Applied Mathematics from New Mexico State University with a concentration in Operations Research.
