

HP Deskjet D2600 Printer Series

Overview

The HP Deskjet D2600 Printer Series is an affordable, easy-to-use, energy-efficient solution that consistently delivers reliable prints for everyday projects. Requiring just three one-touch buttons and simple set-up steps, this printing system is ideal for printing homework assignments, creative projects and photos. Great quality, small in size and affordable, the HP Deskjet D2600 Printer Series is great for first-time printer owners, families needing an additional printer, and college students. Convenient access to cartridges and an ink level gauge that shows when ink is running low make this printer easy to maintain as well.

HP Smart Web Printing lets users select, store and organize text and graphics from multiple web pages, and then edit and print exactly what they see onscreen. It gives users the control they need to print meaningful information while minimizing waste. Recent usage studies suggest the technology uses an average of 45%⁽⁸⁾ less paper than a browser's print command alone.⁽¹⁾ Additionally, the HP Deskjet D2600 Printer Series is made of 50 percent recycled materials, is ENERGY STAR®-qualified and provides a paper-saving printing option that allows customers to print multiple pages or slides on both sides of the paper.

Key features and benefits

- Requiring only three one-touch buttons – power, resume and cancel – printing is quick and simple.
- Ink replacement is quick, simple and convenient with easy access to cartridges and an ink level gauge that shows when ink is running low.
- With fewer set-up steps, users can easily begin printing.
- Get three times more black printed pages and two times more color printed pages, using replacement high-capacity ink cartridges.⁽²⁾
- Use the “Eco-tips” button in the HP Solution Center to learn more ways to print responsibly, conserve resources and recycle.
- Enjoy convenient and responsible ink cartridge recycling at no additional cost through [HP Planet Partners](#).⁽³⁾
- Conserve resources – the HP printer is made of 50 percent recycled materials, and HP 60 ink cartridge bodies are made from [recycled plastics](#) from used HP cartridges collected through HP Planet Partners and other sources, such as water bottles.
- Receive cash back for printers and other unwanted technology equipment or, if there is no value, responsibly recycle them through the [HP Consumer Buyback and Planet Partners Recycling Program](#).
