

LEE KEDRIE

Chief Technologist, HP Services Solutions Expertise Center
HP Enterprise Business

HEWLETT-PACKARD COMPANY

Lee Kedrie is a chief technologist for HP Services Solutions Expertise Center and is the Americas lead for Cloud Computing and IT Shared Services Transformation. In these roles, he has designed next-generation solutions involving shared utility computing models and is a recognized thought leader in next-generation computing concepts.

He also leads delivery teams in IT transformation planning engagements that help HP customers understand the organizational, cultural, governance and operational processes that must be transformed to adopt shared services operating model or cloud computing concepts.

Kedrie has 30 years of experience in the technology industry, including 17 years of business ownership. He has consulted with major global telecommunications, healthcare, manufacturing, financial and pharmaceutical organizations in the areas of next-generation computing models, IT shared services, consolidation, computer telephony and convergence.
