

# Alliance Partner Support for HP CloudSystem

---

## Citrix

“Citrix is committed to a pragmatic, no lock-in approach that makes the move to the cloud simpler for the enterprise, providing those customers the choice to leverage infrastructure technologies already in place or to add new ones, to connect their data centers seamlessly to external clouds, and to provision applications and deliver them to their users. The close engineering collaboration between Citrix and HP, as well as the proven scalability of deploying Citrix solutions on HP ProLiant servers, ensures that the combination of HP CloudSystem and Citrix OpenCloud will help organizations truly realize the benefits of an open and flexible cloud.”

— Klaus Oestermann, group vice president and general manager,  
Networking and Cloud Product Group, Citrix

## Intel

“Intel and HP have a decades long history of working together, and Intel is pleased to support HP’s announcement of HP CloudSystem. By utilizing both Itanium® processors with mainframe-class reliability and Intel® Xeon® processors with security enhancements like Intel AES-NI and Intel Trusted Execution technology, HP CloudSystem provides a compelling platform to enhance security and reliability, increase business agility, and deliver efficient performance to meet demanding IT requirements in multitenant environments.”

— Boyd Davis, vice president and general manager, Intel Architecture Group, Data Center Group Marketing, Intel

## Microsoft

“Microsoft and HP have a strong history of collaboration focused on delivering solutions that help customers achieve scale, efficiency and results in their IT environments. By using Microsoft Hyper-V and HP BladeSystem Matrix, as part of an HP Cloud System solution, customers can build on their investments in Microsoft technology and infrastructure

and build private clouds to help increase IT efficiency and lower cost."

— Amy Barzdukas, general manager, Server and Tools Marketing,  
Microsoft

### **Red Hat**

"HP's Instant-On Enterprise vision is solid and comprehensive, and Red Hat is working closely with HP across many components of this strategy. Customers consuming HP Cloud Services or building their own cloud solutions on HP CloudSystem will benefit from Red Hat's open, flexible, secure, highly scalable, enterprise-class infrastructure, and the compelling price/performance advantages and proven expertise that HP and Red Hat have delivered together for over 11 years."

— Scott Crenshaw, vice president and general manager, Cloud Business Unit, Red Hat

### **VMware**

"Our partnership with HP provides joint customers with the full benefits of cloud computing, removing barriers to cloud like security and storage, while enabling the delivery of IT as a Service. In addition to our portfolio of VMware vCloud™ Director and VMware vSphere™, HP CloudSystem will further help enterprises accelerate their transition to the hybrid cloud."

— Gary Green, vice president, Global Strategic Alliances, VMware
