

Mohan Krishnan

Vice President and Managing Partner
Technology Consulting
Technology Services, Asia Pacific and Japan
Hewlett-Packard Company

Mohan Krishnan is vice president and managing partner for Technology Consulting in Asia Pacific and Japan (APJ) at HP. This business includes management of service lines such as Cloud Computing, IT & Data Center Transformation, Storage & Data Management Services, Networking Services, Client Infrastructure Solutions, Critical Facilities Services and Education Services.

Krishnan is further responsible for the profitable growth and capability development of the Technology Consulting practice in APJ, enabling his team to solve complex customer problems in multiple industries such as telco, financial services and manufacturing.

Krishnan sits on the Asia Pacific HP Technology Services leadership team and is an associate member of The Indus Entrepreneurs Singapore, a global network of entrepreneurs.

Krishnan has been with HP for more than 15 years holding various management roles across consulting, integration and support services. Prior to joining HP, he worked as chief financial officer at Guest Keen Nettlefolds, India, and as commercial manager at Unilever, India.
