

## HP T200 Color Inkjet Web Press

Take your business to the next level and increase growth and profits

Step up to full variable color printing and gain increased productivity over a single-color printing system. The 22-inch (558-millimeter) duplex paper path and high-productivity print speeds support multiple applications. Designed to fit your production environment and integrate with existing finishing equipment, this compact press can help you capture new business and increase profitability.

### Grow your business with high-impact digital color

Capture new business and future growth with high-quality digital, print-on-demand color. The HP T200 Color Inkjet Web Press delivers consistently high print quality—with sharp text, images, graphics, and uniform area fills—on a broad range of media.

- HP Bonding Agent allows you to print on low-cost, uncoated offset media with outstanding quality and durability
- Broad media compatibility includes uncoated offset stock, groundwood, and newsprint
- Achieve the highest print quality with uncoated ColorPRO papers and coated papers co-developed with industry-leading media partners

### Production and application flexibility

This compact press fits with your existing production environment and extends your capabilities to print new products and applications. It integrates with common existing in-line, near-line, or off-line finishing. It supports multiple applications with a 20.5-inch (520,7-millimeter) print width.

- Innovative paper path delivers performance in a compact size to fit centralized and distributed facilities
- The HP Graphics Workflow Solutions Portfolio offers a wide range of solutions partners to provide choices across each phase of the production process, from pre-press design and job management to finishing and fulfillment
- Fast and flexible—supports multiple applications with a print width up to 20.5 inches (520,7 millimeters)
- Flexibly print on pre-printed forms or deliver 100% variable full-color documents from white sheet

### Increase profitability with low risk

Upgrade to full digital color to capture high-value production print and increase profitability. This HP press is designed to fit with your existing infrastructure, deliver high monochrome productivity, and help you deliver color as your business grows.

- Easily transition from single-color to full-color printing
- Purchase consumables as needed and print on standard uncoated offset paper
- Transform your production environment with one-step all-digital color on your schedule
- Original HP inks and long-life HP thermal inkjet printheads provide consistent, reliable performance

### Experience exceptional color and monochrome productivity

Boost productivity with exceptional color and monochrome speeds. Print applications up to 20.5-inches (520,7-millimeters) wide at duplex speeds up to 400 feet (122 meters) per minute.<sup>1</sup>

- Optimize press uptime with proven HP Scalable Printing Technology—multiple nozzles address each pixel to minimize print defects and reduce waste
- Increase your flexibility with an optional speed upgrade to print color at up to 400 fpm at full resolution<sup>1</sup>
- Experience robust performance with a high duty cycle
- Spend more time printing with easy, automated quality control features
