

Daniel Turner

Vice President, Enterprise Security Services
Hewlett-Packard Company

Dan Turner leads the Enterprise Security services business for Enterprise Services at HP. He works closely with clients that assign the highest value to the assurance of their information capital. These include some of the world's largest organizations in the financial services, communications, media, entertainment, retail, pharmaceutical, logistics manufacturing and public sectors.

Turner is also chief executive officer of Information Security, an HP subsidiary providing security advice and outsourcing to major banks, government departments and global manufacturers.

Turner has senior-level experience in leading information security businesses in both turnaround and growth scenarios. Previously, he served on the management team of venture capital-backed Vistorm, where he focused on developing the value of professional services and intellectual property. He defined the company's strategic roadmap and developed its services practice and market-leading Information Assurance Platform.

Prior to joining Vistorm, Turner was instrumental in returning QinetiQ's information security business to profitability. Before working in the technology industry, Turner was a senior officer in the Royal Air Force.

Turner is a chartered engineer in the Institute of Mechanical Engineers and he holds a bachelor's degree in aerospace engineering from Cranfield University, a master's in science from Loughborough University and an MBA from the University of Warwick.
