

HP Announces Formation of Enterprise Security Products Business Unit

Unifies ArcSight, Fortify and TippingPoint technologies to deliver transformational security intelligence and risk management solutions

PALO ALTO, Calif., Sept. 12, 2011 – HP today announced the formation of the [HP Enterprise Security Products](#) business unit, bringing together market-leading technologies from [HP ArcSight](#), [HP Fortify](#) and [HP TippingPoint](#).

Charged with driving the unified delivery of HP security intelligence and risk management solutions, the HP Enterprise Security Products unit enables enterprises to assess, transform, manage and optimize their security investments.

“In today’s world of mobility, cloud computing and social media, organizations must establish a comprehensive approach to managing risk,” said Tom Reilly, vice president and general manager, Enterprise Security Products, HP. “By integrating our investments in industry-leading security technologies, HP has built a powerful portfolio of security offerings that provides a transformational approach to managing risk and securing the enterprise.”

To help organizations manage the risk and compliance demands associated with escalating IT complexities and security threats, HP Enterprise Security Products has established a foundation for a unified approach to enterprise security. The [HP Security Intelligence and Risk Management](#) (SIRM) platform offers advanced correlation, application protection, and network defense technology to protect applications and IT infrastructures from sophisticated cyber threats.

Providing security context to operations and network management, the SIRM platform enables reporting via the [HP IT Performance Suite](#). Supported by an expansive network of partners, the SIRM platform will help organizations remove risk from existing infrastructures and establish a framework for deploying future systems within a more secure environment.
