

Executive Biography

Ali Shadman

Vice President and Chief Technologist, Technology Consulting
Hewlett-Packard Company

Ali Shadman is vice president and chief technologist for the HP Technology Consulting Organization. In this role, he is responsible for driving and managing the organization's portfolio, including transformational initiatives such as cloud computing and hybrid delivery models.

Prior to joining HP, Shadman was vice president of Business Consulting at Oracle, leading programs focused on a business-driven approach to large-scale IT transformations. Before Oracle, Shadman was vice president, general manager and chief technology officer for Unisys Corporation's technology businesses, driving initiatives for large scale virtualization and automation, data center transformation and open source computing.

Shadman's nearly 30 years of experience spans hardware, software and services in a variety of capacities, including research and development, strategy, marketing, and business development. He has founded a number of startups and remains active in advising early stage companies.

Shadman serves as a member of the advisory boards for University of California, Irvine's Donald Bren School of Information and Computing Sciences and Henry Samueli School of Engineering.

Shadman holds a Post Graduate Diploma in Operations Research from London Metropolitan University and a Bachelor of Science in Mathematics and Computer Science from the University of Essex.
