

# RESTORE CONTROL, REINFORCE SECURITY, REDUCE COSTS

## What if you could...

**Enhance** the security of networked printers by easily authenticating devices and users?

**Offer** mobile and remote workers, as well as print-reliant departments, the access and features they need?

**Increase** the rate of return on infrastructure investments by tracking activity by device, user, and department?

**Cut** print costs across the organization with rules-based printing and intelligent routing?

**Change** user behavior without sacrificing convenience or security?

## HP Access Control Printing Solutions

Uncontrolled print environments and practices present a serious risk to the profit and security of your organization. IT is under pressure to protect sensitive information, secure devices, and improve the way they manage the entire fleet. To gain better control, your organization needs to implement plans that meet industry regulations while also increasing productivity, lowering costs, and providing users with more flexible imaging and printing solutions.

Use HP Access Control (HP AC) Printing Solutions to enhance security, help reduce costs, and improve productivity in the print environment. The HP AC suite delivers print authentication, auditing, authorization, accounting, and secure-pull-printing capabilities that are scalable across any organization. HP AC is designed to be modular and integrate easily with HP devices, enabling you to choose the specific solutions that are right for you.

### Solution at a glance

Transform imaging and printing practices for a more efficient and secure environment. HP Access Control Printing Solutions makes it easy to monitor and control imaging and printing costs, collect and track data by device and user, and modify user behavior to help lower expenses and eliminate unclaimed documents. Manage access to networked HP LaserJet printers, MFPs, and scanners to protect sensitive information. Help ensure streamlined imaging and printing practices by confirming the right devices are being used for the right jobs, and contribute to environmental goals by reducing paper usage.

### Control and secure your managed print environment

- **Secure Pull Printing**—Enable users to print to the network, and then retrieve jobs to any solution-enabled device. Pull printing virtually eliminates unclaimed documents, and increases the efficiency of mobile workers by allowing them to access documents from almost anywhere.
- **Secure Authentication**—Protect your networked imaging and printing devices with robust authentication features that integrate with existing network credentials, including LDAP and Active Directory. Increase document security by requiring simple user authentication prior to printing, copying, emailing, or scanning at the device.
- **HP Proximity Card Readers**—Provide users with a single authentication solution that supports a wide variety of the proximity card protocols.

## HP Access Control Professional

The full suite of solutions that includes print authentication, auditing, authorization, accounting, and secure pull printing.

## Meet specific needs with a modular approach

**HP Access Control Express**— A lower cost, simplified solution, HP AC Express delivers secure print authentication, secure pull printing, and job accounting features.

**HP Access Control Professional**— The full suite of HP AC solutions, HP AC Professional delivers print authentication, auditing, authorization, accounting, and secure pull printing express.

**HP Access Control Modules**— The gateway to customize your environment with only the features you need, HP AC Modules delivers any of the individual solutions within the suite.

## HP Access Control Bundle Comparison

	HP AC Express \$199	HP AC Professional \$499	Modular Solutions \$100–\$250 per module
<b>Secure Authentication</b>			
<b>PIN, PIC, and Mobile Release</b>	Yes	Yes	Yes
<b>Proximity Reader (CZ208A)</b>	No	Yes	Yes
<b>Secure Pull Printing</b>			
<b>Secure Pull Print Express</b>	Yes	Yes	No
<b>Secure Pull Print</b>	No	No	Yes
<b>Job Tracking and Reporting</b>			
<b>Job Tracking</b>	Up to 30 users per device	Up to 30 users per device	Yes
<b>Job Accounting</b>	Yes (no quota/allocation)	Yes	Yes
<b>Full Reporting (300+ reports)</b>	Yes	Yes	Yes
<b>Policy</b>			
<b>Intelligent Print Management</b>	No	Yes	Yes
<b>Intelligent Rights Management</b>	No	Yes	Yes
<b>Other</b>			
<b>Encryption</b>	No	Yes	Yes
<b>Roaming</b>	No	No	Yes
<b>Add-on Modules</b>	None available	Job Accounting User Pack (CE948AAE)	All modules are sold independently

## HP at work

When a large pharmaceutical company started to notice signs of an unmanaged print environment—confidential documents left exposed at the printer and employees resisting the steps to complicated authorization—it turned to HP. HP Access Control solutions successfully reined in both the risk and the resistance. Now only authorized employees can retrieve jobs at the device, and encrypted data provides an extra layer of protection. Plus, employees get what they need without the hassle because the simple badge authorization is easy and stress-free.

## Monitor and allocate printing resources

- **Job Accounting**—Track the use of devices and supplies across your organization. Use that data to easily create detailed reports that allow you to allocate print costs, motivate employees to print smarter, and provide IT with the necessary information to improve fleet-wide forecasts.

## Lower costs with effective management

- **Intelligent Print Management**—Manage output and create custom printing rules that help you meet cost-cutting goals, internal compliance needs, and environmental initiatives. Save paper, restrict color printing to only those who need it, and balance device use with automatic job routing.
- **Intelligent Rights Management**—Create custom device user controls that enforce your security goals, lower costs, and assign specific usage rights to individual workers or groups for faxing, copying, and scanning.

## Why buy HP?

HP has the expertise to identify and integrate innovative solutions—for companies of any size—to help meet their complex business needs. As a global technology leader, HP offers financial stability and scale to improve IT value, enabling customers in major industries to become more cost-effective, efficient, secure, and sustainable.

## Get started

Contact your local HP representative to:

- Set up a workshop with HP to assess your specific business needs.
- Establish a plan to implement the best solution for today and into the future.
- Identify an environmental approach that can help your company save money.

## HP three-part approach

HP works with you to assess, deploy, and manage an imaging and printing environment tailored to meet your business needs, while helping you reduce costs, conserve resources, and simplify document-intensive processes. HP's three-part approach:

### Optimize infrastructure

HP can help you achieve a balance between your total cost of printing and your needs for user convenience and productivity.

### Manage environment

Working together, HP can help you maintain your optimized infrastructure while improving business efficiency and tightening security.

### Improve workflow

By streamlining your document-intensive processes, HP can help you deliver a more efficient environment for capturing, managing, and sharing information.
